CURRICULUM VITAE

Szymon Berski

Senior Software Engineer / Full-Stack Web Developer

15+ years building websites, e-commerce platforms, dashboards, and web apps for clients in Poland and abroad. Full-stack — Laravel and Node on the back, Vue and Astro on the front — owning the work from architecture through deployment.

Bielsko-Biała, Poland | +48 692 355 180 | szymon@spoko.space | spoko.space | LinkedIn | GitHub

Work Experience

Roles spanning 15 years across freelance and software houses.

06.2020 → present

Senior Software Engineer

• Self-Employed · Remote · Bielsko-Biała · Ustroń

Rocksoft • previously Tantis • PL & international clients

Full-stack delivery for international clients: Laravel + Vue platforms, Salesforce Commerce Cloud storefronts, custom dashboards, headless WordPress. Architecture, backend, frontend, and end-to-end deployment.

Laravel · Vue · Node.js · SFCC · WordPress (headless) · PHPUnit · Playwright

12.2017 → 05.2020

Front-end Developer

Bielsko-Biała

Lizard Media • UX & software house

Front-end for e-commerce (PrestaShop, Magento) based on Adobe XD designs, client site maintenance, landing pages, corporate WordPress sites. Adopted workflow and standards of a large software house (Git, Gulp, Webpack, Jira, Kanban, Confluence, technical docs).

PrestaShop · Magento · WordPress · Webpack · Gulp · Adobe XD

02.2015 → 12.2017

Front-end Developer

Bielsko-Biała

AQIMO.pl & NO-LIMIT.pl

Building websites, portals, and applications for companies; designing website templates.

HTML · CSS · JavaScript · WordPress

Selected Projects

A cross-section of recent and notable work.

Own products

02

uper.pl

Uper SEO Auditor — Chrome extension for SEO pros and devs: real-time Core Web Vitals, schema.org debugging, GTM verification, JS errors in a side panel. Listed on the Chrome Web Store.

Garazyn

Private inventory system for parts and tools in a home garage. Laravel 13 + Filament 5, QR workflows (label printing, multi-scan), REST API, AI integrations (Gemini, DeepL). PHPUnit + Playwright tests.

E-commerce

09

EasyTruck.shop

Heavy-duty truck shop management platform built on Laravel and Vue, covering the full workflow from customer intake through billing — service work orders, parts inventory, invoicing, and team operations.

horze.de

Front-end for an international online store on Salesforce Commerce Cloud (VanillaJS, jQuery, SCSS); implemented designs from a UX Designer based on Figma projects.

tantis.pl

Front-end of the administration panel for an online bookstore (Vue.js, Bootstrap-Vue, TypeScript, Twig), plus cosmetic changes on the storefront (jQuery, TypeScript, Blade).

montersi.pl

Front-end for an online store based on PrestaShop 1.7 — graphic interface programming in accordance with the design, cooperation with a UX designer, reconstruction of the faceted navigation module, cart, customer panel, invoices, integration with Orbitvu 360.

sklepmartes.pl

Corrections and layout updates in an online store on PrestaShop 1.5: custom changes in cart, deliveries, and payments; product card and listing updates per A/B test guidelines from an external agency; integrations with mode360.eu and Paczkomaty. (Since 2021 Martes uses Magento 2.)

touspolska.pl

Minor layout changes in a jewelry store on Magento 2; numerous landing pages for the Polish and Czech versions for current promotions with strong emphasis on RWD and iOS display (tested on physical devices and via browserstack.com).

she.pl

Front-end for an online store with SHE swimwear (custom Phalcon backend) to design; PBN management for effective positioning of the client website.

pilguni.com

Front-end for a store selling winter clothes for children (Phalcon framework).

krosno.com

Website rebranding: adapting the existing site to a refreshed design, content updates, and corrections to sklep.krosno.com.pl (PrestaShop 1.5) in line with SEO recommendations from an external agency audit.

WordPress · Marketing

04

polo.blue
Car parts blog — statically generated Astro front-end backed by a WordPress REST API.

profile.grupakety.com
Multilingual website on WordPress built to a prepared design, with an admin panel adapted to the client (easy editing of all data).

lizardmedia.pl
Creating a new version of the website for the purposes of brand rebranding — a website built on the basis of WordPress, prepared for the future English version, custom fields and templates, management of call-to-action banners, advertisements, WordPress security.

skin-laser.pl
Front-end for Skin Laser Lubelscy aesthetic medicine clinic; multiple landing pages for Google Ads campaigns.

Custom CMS

02

polo6r.pl
Parts and accessories catalog for VW Polo 6R — custom CMS, Astro SSG front-end, Laravel + Filament admin, AI descriptions, DeepL translations, Cloudflare R2 image pipeline, Meilisearch.

aluprof.eu
Numerous modifications to the layout of a fairly large website based on PyroCMS and Vue, RWD corrections, implementation of translations, updates, content management with its microservices and preparation of templates for the newsletter at freshmail.pl.

Skills

Technologies and tools I use day to day.

FRONTEND

Markup, JS & UI frameworks

HTML5 · CSS · TypeScript · Vue · Astro · Tailwind · UnoCSS · RWD

BACKEND

PHP/Node & e-commerce platforms

Laravel · Node.js · PrestaShop · Magento 2 · SFCC · WordPress · Filament

TOOLING

Git, CI/CD, build & packages

Git · Vite · pnpm · GitHub Actions · Webpack · Bun

QUALITY

Testing, monitoring & integrations

Pest · PHPUnit · Playwright · Stripe · courier APIs · CRM

SEO · AI

Practice, content, LLM tooling

SEO / AEO · Figma · Claude Code · Codex · Core Web Vitals · GSC · GA4

ALWAYS ON

Mindset I bring

code review · architecture decisions · async by default · docs-first · perf budgets

Education

A combination of computer science and visual design.

2014 → 2016 · 2 yrs

MASTER

Master of Computer Science

Applications of Computer Networks

Wyższa Szkoła Biznesu in Dąbrowa Górnicza
Higher education

2010 → 2014 · 4 yrs

ENGINEER

Engineer of Computer Science

Graphics, Design and Multimedia

Bielska Wyższa Szkoła im. J. Tyszkiewicza
Higher education · Bielsko-Biała

2006 → 2010 · 4 yrs

TECHNICIAN

IT Technician

IT-focused technical secondary school

Zespół Szkół Elektronicznych
Technikum nr 9, Bielsko-Biała

Qualifications & interests

What sets me apart and what drives me.

QUALIFICATIONS

- ✓ **AI-pair programming** Claude Code, Codex and GitHub Copilot as everyday pair-programming: review, refactor, test generation, docs research. AI as a tool, not an autopilot.
- ✓ **Remote work** with clients in Poland and abroad.
- ✓ **Working English** for international projects — technical communication, documentation, async code review.
- ✓ **Independent project delivery** from architecture and implementation through deployment and ongoing support.
- ✓ **Driving license — category A and B** own car.

INTERESTS

- Building fast, well-crafted websites 01
- Web optimization and online visibility 02
- Computer graphics, flat design 03
- New technologies 04
- Car electronics 05

I consent to the processing of my personal data contained in this CV by the entity to which it has been submitted, for the purposes of the current and future recruitment processes, in accordance with GDPR (EU Regulation 2016/679).
